### Wood Species

Maple or Oak

### Arms

Frame consists of 1-1/4" x 3" poplar and 7/8" hardwood plywood and is covered with polymeric urethane foam. Arms are attached to the mainframe by 3 steel pins. With wood cap option, arms are capped with a 1/2" thick Red Oak or Maple veneer.

### Backs

The Back has two components, an outside back and a back cushion. The back cushion is made of high density polymeric urethane foam. The outside back consists of 5/8" 5-ply and 7/8" 7-ply hardwood plywood.

### Seat Deck

Frame consists of 7/8" 7-ply hardwood plywood, covered with elastic webbing woven of polyester monofilament. The

seat deck is the base to which the back cushion is anchored.

### Seats

Seat cushion core is polymeric urethane foam. Seat cushions are secured by a steel tensioning rod.

### Moisture Barrier

Sauder laminates a waterproof polyurethane membrane to the polymeric urethane foam. It is waterproof, mildew-proof, and washable.

### COM

Customer's Own Material is estimated yardage based on 54" wide, solid-color fabric. Actual required yardage may vary depending on special instructions for matching direction of pattern. A sample must be submitted to determine actual yardage needed and any additional upcharge.

### Cal TB 133 Specifications

All seating products can pass Cal TB 133 when appropriate

materials are specified.

### Assembly and Disassembly

All components are assembled and disassembled with a single hex key wrench. The seat and back cushions are removable for maintenance without disassembly of the main frame structure.

### Warranty

This product is warranted against defects in materials and workmanship for a period of 25 years from date of delivery. Sauder Program Fabrics are warranted for 3 years.

### Note

Fabrics shown in this literature were readily available at time of photography. However, Sauder Education cannot guarantee continuing availability of any fabric or finish.

## CHAIR OPTIONS

### Mobility Option

#### Components

The mobility option includes two stationary casters in the front of the chair and a handle bar above the outside back.

#### Casters

The wheels of the casters are 3-1/2" dia. x 1-1/4". The tread of the wheels are non-marking thermo-plastic rubber bonded to a polyolefin hub. The caster weight capacity is 250 lbs. per caster. Casters are warranted for 3 years.

For more seating and table information, contact Sauder Education at:

Archbold, Ohio 43502

1.800.537.1530 ph.  
419.446.4945 fax  
SauderEducation.com

### Handle

The handle does not extend beyond the boundary of the chair and thus poses no threat of wall damage. It is made of 1" diameter steel rod and 1-1/4" x 3/16" steel bar.

### Assembly and Disassembly

Handle is fastened with two flat head cap screws. A 3/16" hex key may be used to remove the handle and allow for fabric replacement. Caster brackets are attached with two button head cap screws. A 3/16" hex key is used to remove and install the casters. The wheels can be removed from the bracket with a 1/2" hex wrench.

### Tablet Arm Option

#### Mechanism

Consists of an aluminum receiver and a steel pivot weldment. The pivot weldment is inserted into the receiver and is then secured by a hardened steel set screw.

#### Mechanical Attachments

The top is mounted to the pivot weldment by six pan head screws. The receiver passes through a hole in the top of the arm frame and threads onto a steel bolt that has been epoxied into a hardwood arm frame member.

#### Top

The top consists of plywood, laminated on top with high pressure plastic laminate.

### Assembly and Disassembly

All tablet arm assembly and disassembly is accomplished with a single 1/8" hex key wrench.

### Warranty

Tablet arms are warranted for 3 years.

Oval Tablet

Kidney Tablet
