Dot
702-1506, 712-1506

Wood Finish Materials & Methods

First application is an organic pigment, grain enhancing stain. The second application is a high solids catalyzed sealer. After the sealer is dry, it is sanded. Final application is #55 gloss high solids mar-resistant catalyzed finish. Sauder Education finishes are E.P.A. compliant.

Cal TB 133 Specifications

All seating products can pass Cal TB 133 when appropriate materials are specified.

Warranty

Chairs are warranted against defects in materials and workmanship for a period of 2 years from date of delivery.

Note

Finishes shown in this literature were readily available at time of photography. However, Sauder Education cannot guarantee continuing availability of any finish.
