*Only 50% of pre-consumer material counts toward total calculation.

** The furniture is extracted, harvested and manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Archbold, OH.

Trey is sourced in and manufactured in the United States.

The Sauder Manufacturing Co. Sustainability Design includes responsible resourcing, continued recycling and enhancing of existing internal processes.

Based in Northwest Ohio and Northeast Indiana, we've grown to house three manufacturing and warehousing complexes but primarily we've been building a company culture of caring for nature, the environment, our home communities and employees.

We continue to track the swiftly evolving landscape of environmental certifications to ensure Sauder Manufacturing Co. retains or exceeds the certifications most relevant to our industry and our customers.

Sauder Manufacturing Co. has chosen to work toward BIFMA e3: 2008 Level™ Sustainability Standard, as the program focuses on furniture and has the potential to define the furniture contribution to the LEED® point system.

Sauder Manufacturing Co.
Sauder Education
Sauder Worship Seating
Wieland

Our policy starts with a commitment called stewardship, and it means we actively seek to conserve, recycle and act with respect toward the environment. We'll go beyond the basics required, striving for sustainability of the environment from the sourcing of raw materials, to recycling and to adapting our internal processes and procedures.

Compliance with the latest environmental laws and regulation is a natural by-product of our long-term commitment to our customers, neighbors and ourselves.

All 3 of our brands, Sauder, Education, Wieland, and Sauder Worship Seating are recycling and sourcing renewable materials as an integral part of our process.
