Wood Species

Maple or Oak

Arms

Frame consists of 1/4" oriented strand board, 3/4" plywood and 1/2" hardwood. Arms are topped with polymeric urethane foam.

Backs

Backs are constructed out of plywood support posts. High resiliency polymeric urethane foam is adhered to the back deck. Outside backs are plywood with tubular connectors attached by buttonhead cap screws.

Seat Deck

Frame consists of 3/4" plywood, covered with webbing woven of polyester monofilament. The seat deck receives the back deck via bolts in the back support posts.

Seats

Seat cushion core is polymeric urethane foam. Seat cushion is adhered to the seat deck.

Moisture Barrier

Sauder laminates a waterproof polyurethane membrane to the polymeric urethane foam. It is waterproof, mildew-proof, and washable.

COM

Customer's Own Material is estimated yardage based on 54" wide, solid-color fabric. Actual required yardage may vary depending on special instructions for matching direction of pattern. A sample must be submitted to determine actual yardage needed and any additional upcharge.

Cal TB 133 Specifications

All seating products can pass Cal TB 133 when appropriate materials are specified.

Assembly and Disassembly

All components are assembled and disassembled with a single hex key wrench. The seat and back cushions are removable for maintenance without disassembly of the main frame structure.

Warranty

This product is warranted against defects in materials and workmanship for a period of 25 years from date of delivery. Sauder Program Fabrics are warranted for 3 years.

Note

Fabrics shown in this literature were readily available at time of photography. However, Sauder Education cannot guarantee continuing availability of any fabric or finish.
