

# WHAT YOU CAN'T SEE.

That is what makes Sauder Education® a welcome difference in today's world.

## Environmental Friendliness

The uniqueness of our renewability and replacement system significantly extends the life of furniture, ultimately reducing contributions to the waste on our planet.

## Foam

Only the highest quality, high-density foams are used, and are covered under warranty.

## Construction

The methods allow for product longevity while providing great versatility, making it easy to access components on-site, often with one simple tool.

## Wood

The strong frame is made up of hardwood plywood and Baltic Birch plywood, providing the furniture with more stability than ordinary solid hardwood framing that can crack over time.

## Fabrics

Hook-and-loop closures keep the fabric securely in place, yet allow easy on-site removal for cleaning and replacement on fully upholstered models.

## Moisture Barrier

A pliable waterproof membrane protects interior foams from any kind of liquid damage - spot cleaning becomes a simple task.

# WHAT'S INSIDE

Furniture from Sauder Education® is built for durability. It can withstand heavy use in high traffic environments. We pride ourselves on delivering durable, high quality products, and stand behind them with unmatched warranty service. What you can't see, what's inside...that's what really matters!

## Anti-Bacterial Vinyl Fabrics

These materials not only help keep furniture sanitary, they also give our seating a longer, lasting life in high use environments.

## High Density Back Foam

Superior comfort as well as back and lumbar support.

## Solid High Density Compression Seat Foam

Greater comfort, prolonged support and cushioned definition.

## Reversible Seat Cushions

More than doubles useful life of cushion. Available on most styles.

## No-Sag Springs or Nylon Webbing in Seat and Back Support

Offers greater comfort and eliminates protruding spring coils.

## Insulated Seat Deck

Reduced wear from spring contact.

## 10-Year Frame Warranty

10 times average retail warranty.

## Hardwood Frame Cross Rails

Thicker and stronger frame construction to stand up to tough environments.

## Engineered Lumber & Strong Joint Construction

Designed for high use environments.

# COMPONENT REPLACEABLE

Component replaceable seating by Sauder Education® provides easy replacement of worn or damaged components in the field. When ordering new components, they arrive with fresh foam and upholstery cover applied, so a quick swap with minimal tools and effort can be achieved.

## Arms

The arms are attached to the frame with four bolts, which are accessible from the underside of the chair and one bolt accessible after removing the seat cushion.

## Chair Base

Includes a one-piece back and sinuous wire seat deck, can be replaced once all other components are removed.

## Seat Cushion

Tethered to the chair frame using a fabric flap with hook-and-loop.

## Legs

Legs are attached to the underside of the arms with bolts. Every Chill unit comes with the required attachment points to accept either metal or wood legs, which are interchangeable.
