

Trey Chair 7020650 with Casters

Trey Chair 7320660

Trey was purpose-designed to embrace how today's students study, interact and relax.

- > Ergonomic task chair easily converts into a floor rocker with a table/stool unit in seconds
- > State-of-the-art engineered polymers are used in the construction of the frame and base
- > Upholstered seat and back available in a multitude of fabric patterns and colors
- > Contoured foam cushions provide extra sitting comfort and are easily removable for cleaning, repair, or replacement
- > Tilt lock control and adjustable tilt tension
- > Pneumatic seat height adjustment
- > Casters are standard; large-footprint glides are available as an option
- > 360° Swivel
- > Delivered pricing available
- > GREENGUARD® Certified for low chemical emissions UL.COM/GG UL 2818*
- > Covered by a 10 year warranty

Trey small scale seating

Product Number	Product Description	Width	Depth	Height	Seat Width	Seat Depth	Seat Height	Arm Height	Weight

Trey Chair 7020650 with Casters

Trey Floor Rocker 7200650

Trey Base/Table 7110650

Frame and Table Top

Trey's frame and table top are both constructed of gas-assist injection molded co-polymer polypropylene offering design flexibility to achieve strength, durability, and impact resistance in a unique and highly reliable form.

Seat and Back

The seat and back inner panels are ergonomically formed structural components of injection molded co-polymer polypropylene. Seat padding is in the form of a custom molded high-density polyurethane foam 1¼" thick, while back padding is a 1¼" thick high quality foam cushion. Upholstered panels are removable via tamper-resistant fasteners for cleaning, repair, or replacement. Non-upholstered seats and backs are comprised of high density polyethylene.

Mechanism

Trey's swivel/tilt mechanism is constructed of high-grade 12-gauge steel, electro-coated for corrosion resistance. The mechanism's single lever provides for actuation of the height adjustment cylinder and the locking of the mechanism's tilt action. Ease of tilting can be controlled by the mechanism's tension knob.

Pneumatic Cylinder

Sourced from one of the world's premier manufacturers, Trey's pneumatic cylinder provides easy, maintenance-free adjustment of the seat (and table/stool) height. Continuously adjustable over a range of 2¾", the cylinder also permits 360° swiveling and increases seating comfort due to its pneumatic suspension effect.

5-Star Base

Trey's base is constructed of injection-molded glass-filled nylon, an extremely strong and tough engineered resin.

Glides and Casters

Standard are Trey's casters which provide additional mobility. Optional glides are custom-designed of injection molded nylon. Each glide provides 2.25 sq. in. of contact surface for superior stability, load distribution, and flooring protection.

Arms

Arms are height adjustable with a range of 2¾". Armrests are padded adding increased comfort.

Cal TB 133 Specifications

All seating products can pass Cal TB 133 when appropriate materials are specified.

COM

Customer's Own Material is estimated yardage based on 54" wide, solid-color fabric. Actual required yardage may vary depending on special instructions for matching direction of pattern. A sample must be submitted to Sauder Education to determine actual yardage needed and any additional upcharge.

Warranty

Trey is warranted against defects in materials and workmanship for a period of 10 years from date of delivery with the exception of glides, casters, and Sauder Program Fabrics, which are warranted for 3 years.

Note

Fabrics shown in this literature were readily available at time of photography. However, Sauder Education cannot guarantee continuing availability of any fabric or finish.
