

# Merit Bedroom

**lift, shift, slide...done!** It's really that easy. Forget what you know about bed systems. The **zTrak Bed System** dramatically improves the process used to change bed heights. Designed and engineered for the student room environment, zTrak only requires minimal effort from two people to change a bed height, while significantly reducing adjustment time.

The **Merit Collection** is a fresh, innovative line of student bedroom furniture featuring our proprietary up-scale laminate construction in three wood finishes and optional Graphite accent tops. Merit offers a comprehensive selection of student desks, chests, wardrobes and beds.

The **PlyWedge** series is designed with style and strength in mind, featuring our unique one-piece side frame construction. PlyWedge 2- and 3-position chairs provide back or back-and-forward rocking positions to maximize comfort and function when studying or socialize.

**Trey®** was purpose-designed to embrace how today's students study, interact and relax. This one-of-a-kind ergonomic task chair easily converts into a floor rocker with a table/stool in seconds.
